Hanz Robles

Web & Frontend Developer — Full Stack knowledge

hanzrobles465@gmail.com | 090-8542-2726 | github.com/hanzrobles465-lab | linkedin.com/in/hanz-robles-a20a391b5 | Portfolio: hanzrobles465-lab.github.io/hanz-robles-portfolio
Yamanashi, Japan — available for Yamanashi area, Tokyo, hybrid or remote

Visa: Spouse of Japanese National — no work restrictions (valid until May 2027, renewal planned)

PROFILE

Web and frontend developer with 5+ years of experience in web production and frontend development, combining professional work, freelance projects and practical portfolio applications. Focus areas: responsive web production, UI implementation, WordPress/ACF, JavaScript, React, TypeScript, forms/modals/component work, API integration, CRUD, authentication and basic Supabase/PostgreSQL implementation. Currently expanding into Full Stack and AI-assisted development, using AI tools (ChatGPT, Claude) within the development workflow for code generation, review, debugging, refactoring and technical research. Continuing a Systems Engineering degree online (classes do not affect work schedule), expected graduation December 2026.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap, jQuery, API integration, accessibility, responsive design, CRUD
Backend / Database	Node.js, Express.js, Supabase, PostgreSQL, authentication, Row Level Security (RLS), REST API, environment variables
WordPress / CMS	WordPress, Advanced Custom Fields (ACF), Elementor, PHP basics
UI / UX	Figma, Adobe XD, UI design, responsive design, accessibility
Dev Tools	Git, GitHub, npm, Vite, CLI, VS Code, debugging
AI-Assisted Dev	ChatGPT, Claude, prompt engineering, AI coding workflows (code generation, review, debugging, refactoring, documentation)
